

Aboveground Storage Tank Facility Statement

SPCC General Applicability (40 CFR 112.1)

If your facility uses, stores or handles oil in an aggregate quantity of over 1,320 gallons, a Spill Prevention, Control and Countermeasure (SPCC) Plan is required.

- Use, store or handle includes storage in tanks or containers, use in hydraulic systems, process or other industrial equipment, oil-filled electrical equipment, piping, transferring operations. Add up the tank or vessel capacity – not just the volume actually stored.
- Oil includes petroleum oils, liquid petroleum fuels, organic flammable solvents, mineral oils and hydraulic fluids.
- For aggregate volume determination, do **not** include any container, tank, system, equipment, etc. with les than 55 gallons capacity, and do not include empty permanently closed tanks. But do include 55 gallon drums.

For aggregate volume determination, do **not** include completely buried tanks. Vaulted below grade tanks are not considered completely buried and must be counted.

3. FACILITY NAME - Enter the doing business as name.
103. FACILITY ADDRESS - Enter the street address where the aboveground storage tank facility is located. No post office box numbers are allowed. This information must provide a means to locate the facility geographically.
104. CITY - Enter the city or unincorporated area in which the aboveground storage tank facility is located.
105. ZIP CODE - Enter the zip code of aboveground storage tank facility. The extra 4 digit zip may also be added.
111. BUSINESS OWNER NAME - Enter name of business owner, if different from Facility Name.
113. BUSINESS OWNER MAILING ADDRESS - Enter the owner's mailing address, if different from business address.
114. BUSINESS OWNER CITY - Enter the name of the city for the owner's mailing address, if different from business address.
115. OWNER STATE - Enter the 2 character state abbreviation for the owner's mailing address, if different from business address.
116. BUSINESS OWNER ZIP CODE - Enter the zip code for the owner's address, if different from business address. The extra 4 digit zip may also be added.
- 117a. CONTACT NAME- Enter the name of the person, who receives Aboveground Storage Tank correspondence.
- 118a. CONTACT PHONE – Enter the phone number, area code first and any extension.
112. OWNER PHONE – Enter the business owner's phone number if different from business phone, area code first, and any extension.
- 119a. CONTACT EMAIL – Enter the email address of the environmental contact in 117, if the contact has one.
920. DOES THE FACILITY HAVE AN SPCC PLAN – Check the box. A Spill Prevention Control and Countermeasure (SPCC) plan is a carefully thought-out plan, prepared in accordance with the guidelines contained in U.S. Environmental Protection Agency's Web site at <http://www.epa.gov/oilspill/spcc.htm>. This plan discusses procedures, methods, and equipment in place at the facility to prevent discharges of petroleum from reaching navigable waters. A complete copy of the SPCC plan must be maintained on site.
921. TOTAL FACILITY CAPACITY – Enter the facility's total petroleum aboveground storage tank/container capacity (in gallons). Aboveground storage tank means a tank/container that has the capacity to store 55 gallons or more of petroleum and that is substantially or totally above the surface of the ground.
922. TANK/CONTAINER ID# - Enter a unique tank/container identification number. You may create your own numbering or naming system.
923. CONTENTS - Enter the contents (e.g. DIESEL, GASOLINE, OIL, etc.) of the aboveground petroleum storage tank/container.
924. SHELL CAPACITY – Enter the aboveground storage tank/container's capacity (in gallons). For drums with identical contents enter the aggregate total for all drums (e.g. 4 X 55 gallon drums= 220 gallons)
925. TANK/CONTAINER LOCATION – Enter general location (e.g. Grid A-1) of the tank/container at your facility.
926. YEAR INSTALLED – Enter the year the aboveground storage tank/container was installed.
927. TANK CONSTRUCTION TYPE - Check the construction type or enter the material used to construct the aboveground storage tank.
928. SECONDARY CONTAINMENT – Check the appropriate box if the tank/container has secondary containment.
- APPLICANT SIGNATURE – The application form must be signed, in the space provided
136. APPLICANT NAME – Print or type the full name of the person signing the form.
134. DATE – Enter the date (M/d/yyyy) the form was signed.
